

A CHEAP STEAMED BREAD

A CHEAP STEAMED BREAD

If you don't have a oven you can still bake a bread. And it is cheaper than buying a bread every day, and taste nicer.

1 cup self raising flour

1/4 tsp salt

2 tsp sugar

2 eggs

40 ml oil

3/4 cup water

Add any savory things you love, sweetcorn, onions meat or cheese.

Take a pot and put a tin lid or saucer in the bottom. Add water just to cover the lid. Place bread mix into a glass bowl and place it in the pot on top of the lid, put the pot's lid on and place on stove on medium heat.

Leave for 1 hour and whalla!! A nice bread that doesn't need a spread.
