

HOMEMADE ONION POWDER

HOMEMADE ONION POWDER

Make your own onion powder. Very easy!

Peel and finely chop your onions.

Spread the onion pieces out on a tray and heat in a 65°C oven until dry.

Tip: The onions are dry when you can easily crumble the chopped pieces in your hand.

Allow the onions to cool. Grind with a coffee grinder, spice mill, food processor or mortar and pestle until you reach your desired consistency.

Store your finished onion powder in an air-tight container in a cool, dry spot or freeze it.
